

Juan Marinero

Master of Science in Data Science

&

Master of Science in Artificial Intelligence

🌐 Birth 27/3/91 Spain 📞 +34 616 423 634 🌐 www.juan-marinero.info 📧 juan.g.marinero@gmail.com 🌐

University

11/25 - 10/26 **M.Sc. in Artificial Intelligence** *International University of La Rioja (UNIR)* 🌐

Internship *ReÁnimaSoluciones*, Automate administrative pipelines via AI 🌐

9/21 - 7/24 **M.Sc. in Data Science** *Open University of Catalonia - Barcelona (UOC)* 🌐

Master thesis 🌐

2009 - 2017 **Electrical Engineer** *University of Valladolid (UVa)* 🌐

Internships *Coop EnergEtica* 🌐 & *Renault*

Bachelor thesis 🌐

Eramus Munich *Hochschule für angewandte Wissenschaften München* 🌐

Engineering Experience

Since 8/24 **Freelance**

Software development, data mining, data analysis and graphing, technical and web support, etc.

2/24 - 7/24 **Vocational training teacher: Renewable Energy, Valladolid**

Wind energy, PLCs, hardwired logic, etc.

12/22 - 6/23 **IT Support & Fullstack** *D. Bosco CyL, Valladolid*

IT technical support, database support, website development and other systems administration activities..

7/22 - 11/22 **3D Printing Remote Support** *HP, Barcelona*

Spoken and written technical support in English, German and Spanish for Hewlett-Packard 3D printers. Through data mining (SQL, Python), the study of symptoms and relying on technical documentation, we focus on the problem and design the troubleshooting action plan.

1/22 - 7/22 **Vocational training teacher: electrotechnics and PLCs** *León - Spain*

PLCs (TIA Portal & Step 7), robotics (ABB), electrical circuits (EPLAN), hardwired logic, pneumatics (FluidSim) and renewable energies (PV Syst).

7/20 - 3/21 **Fullstack developer** *SensProtect GmbH., Munich - Germany*

API development for Raspberry Pi microcontroller and phone app. mobile that notifies (Pushover). Front-end adaptive to the screen format (NodeJS, VueJS & CSS Grid Layout). Presence sensors: data mining, creation of tables&graphs, statistical analysis, PCA and classification.

1/20 - 4/20 **Backend developer** *Pionierkraft GmbH., Munich - Germany*

Adapting to the requirements of the electrical team under development, I marked the procedures of the back-end project: steps, deadlines, collaboration software (Jira), entitlement contract, outsourcing,...

5/19 - 12/19 **TPM Engineer** *VARTA, Burgos - Spain*

Maintenance engineering (TPM), database mining, MS Office macros (VBA),...

- Planning of preventive interventions. Improvement of production KPIs (MTBF, MTTR, idle times,...) and stock logistics.

- Update and create technical documents: Master Routines, BAE/TAE (Basic/technical attention to the

team),... Training and monitoring of high-performance teams.

6/16 - 7/16 **Internships & volunteering in software development and customer support** 
Coop Energetica, - Valladolid

I developed a GUI with Matlab to study electrical consumption. Focused on the most profitable tariff selection: time discrimination, industrial tariffs,...

9/14 - 10/14 **Extracurricular internships Renault S.A.** - Valladolid
Intensive engineering training. Assembly and engine factories.
